## Intensive Practical Mediumship!

Our Intensive Practical Mediumship course is designed to give the maximum amount of development in a minimum amount of time. We will be aiming to work you hard, pushing your boundaries within your mediumship, concentrating on your evidence given during demonstrating, and *one to one* readings.

This will be a practical workshop, a course full of exercises that will cater to the beginner, intermediate or advanced Psychic Medium. We will work with each person individually according to their experience.

We will also be focusing on the negative responses that can stop a demonstration in its tracks and give you techniques to help you 'hold your link' when faced with this type difficult working environment, either in a demonstration or private sitting situation.

The course will be concentrating on the depth of your evidence, and whether it meets today's standards.

How deep within the evidence can you dig? How much do you let slip away? Do you have trouble with your direction when demonstrating to public audiences? Do you ever lose your link mid-way? We will be concentrating on all these areas. Remember Spirit will give you as little as they can to give you as much as they can!

It is often believed that using your awareness is a complicated process, when in reality; it is only ourselves who complicate communication and create a block. Remember you are the medium, and it's up to you to deliver your mediumship. We will put the correct tools in place to be sure you sustain consistency within your delivery.

We will help you to understand and deal with the dreaded "No's" or negative responses you may get from your client whilst working, help you to look deeper into your evidence, pull out a positive and you will learn how a 'NO' response can be healthy in your development. Remember sometimes a 'NO from your recipient' is the best evidence. Embracing these concepts will allow you to relax within your work and, therefore, give better proof of survival than you ever dreamt possible.

Remember that the ability to link with spirit is not a gift but is our birth right.
