ADVANCED ENERGY HEALING

Advanced Energy Healing is a special kind of healing during which the healing medium links to God on behalf of the person who has come for healing. The medium makes a physical connection with the recipient by placing his/her hand on the recipient's back.

The healing medium does not examine, diagnose nor prescribe anything for the recipient but does use a form of silent prayer to increase the energy flowing to the recipient from God. It is through this enhanced energy from God's universe that healing can occur in the physical world.

Healing mediums at Calgary First Spiritualist Church have taken special training to do this work. They practice meditation regularly and know how to link into the higher healing energies. Their focus is on maintaining the link that allows healing to occur rather than focusing on the person receiving healing.
