

## GIFTS FROM BLUE SKY

CFSC has been receiving the gifts of Blue Sky for several years now in the form of eloquent trance lectures delivered by Andy Hall while channeling his lifelong Guide, Blue Sky. The CFSC congregation has been the recipient of truth, clarity and wisdom from a relationship that has been developing upward of 50 years.

The story begins when Andy was 5 years old and sent to an English Boarding School in Suffolk. The parent of one of his school friends was Ken Saunders, leader of the Gateway Spiritualist Center in London, England. When he was 7 years old Andy went to visit the Saunders family and heard about Spiritualism for the first time which interested and intrigued him from then on. At age 19 while having a pretty tough time in life, Andy went to visit Ken and soon joined a mediumship development circle. Within two months he felt Spirit coming through and began to channel Blue Sky a year later, acknowledging that the Guide had been with him since birth. Today Andy says that he is able to get out of the way and let the Guide speak as he wants, but still remains conscious enough to remember the transmissions if someone wants to discuss them.

In the late 1960's Ken and his wife Delores Saunders were touring Gospel Dramas in the USA, mostly to Spiritualist Churches. Ken wrote the scripts and played the part of Jesus with a small supporting cast. Andy joined the tours and eventually the group came to Calgary and started the Gateway Center here. By 1975 Andy became a Canadian citizen and was very busy with an industrial career in a fast growing economy. He had worked in the UK for the largest British scaffolding company and this expertise was exactly what was needed in Alberta at the time.

Andy dropped out of the Gateway Center in Calgary at that time, but joined other groups with a Spiritual mission. He was able to travel the world and has witnessed a lot of mediumship. He has seen the physical trumpet mediumship of William Olson and was enthralled. But despite having witnessed impressive physical mediumship and clairvoyance of a very high standard, he has also witnessed very poor mediumship. So Andy led a Trance Mediumship Development Circle at CFSC in order to continue to help raise the standard of mediumship in Calgary and within the church itself. He has assisted Spiritual Healers in working closely with their Guides in order to raise the standard of healing as well. The more a medium aligns with their personal Guides, the greater the ease and excellence of the work.

CFSC is indeed fortunate to have Andy Hall as a member who is now serving on the Board. Truth and high standards will be the gifts we continue to receive from Andy and Blue Sky.
